CEN3024C Module 6 Project

- Use the starter project provided in this assignment's repo to implement the Swagger UI interface.
- Build and execute your solution and access and test the Swagger page at http://localhost:8080/swagger-ui.html
- Submit your solution code and screensnips to demonstrate success at 1) creating a user, 2) creating a task, 3) access the created user, and 4) accessing the created task.
